

.LRN - Course Management System at AUBG

What is .LRN?

.LRN is “a web-based portal system for course management, online communications, and collaboration”. It was developed as a production unit by the Sloan School of Management, MIT, with version 2.2.0 of .LRN being launched in Summer 2006.

.LRN is a course management system designed to support traditional education, by extending the class in an on-line community, giving faculty and students a way to communicate with each other online. With .LRN, students can find their daily calendar, which contains lectures, assignment deadlines, personal, and other events. Additionally, students can find information about the course teachers, a list of other students, a discussion forum to ask questions to teachers and other students, a list of frequently asked questions, course news, class info, schedule, etc. Faculty have access to do everything they need to do themselves, including approving or rejecting course participants, retrieving an old course from the archives and reusing course materials, etc.

.LRN at AUBG

Production version 2.2.0 of .LRN has been installed at AUBG in August 2006. As a final step of this new installation, faculty, students and staff have been automatically registered in the system. The system has generated emails to all users with their login information – the address of the server, Username and Password.

FREQUENTLY ASKED QUESTIONS

[FAQ00: What is the address of .LRN server at AUBG?](#)

[FAQ01: What is my Username for .LRN server?](#)

[FAQ02: What is my password for .LRN?](#)

[FAQ03: What if I forgot my password?](#)

[FAQ05: How to Login .LRN?](#)

[FAQ06: How to join classes and/or communities I want to be a member of](#)

[FAQ07: How to request a new class/community to be created?](#)

FAQ00: What is the address of .LRN server at AUBG?

The address of .LRN server is: <http://dotlrn.aubg.bg>

FAQ01: What is my Username for .LRN server?

Your username is the first part of your AUBG email address.

Example: If your email address is dod040@stud.aubg.bg

Then your .LRN username is: **dod040**

If your email address is faculty@aubg.bg

Then your .LRN username is **faculty**

FAQ02: What is my password for .LRN?

Your password for .LRN has been sent in e-mail by the system during your registration. **If you have deleted this email, or if you forgot your password look at the FAQ03 “What if I Forgot my password?”**

FAQ03: What if I forgot my password?

Unknown username

If you are not registered, you can self-register for using .LRN – see the next FAQ04.

FAQ04: How to Self-Register for using .LRN?

First, be sure that you are really not yet registered (see the previous FAQ03)

[Main Site](#) » [Log In](#)

Log In

Username	<input type="text"/>
Password	<input type="password"/>
<input type="checkbox"/>	Remember my login on this computer
<input type="button" value="Log In"/>	
Forgot your password?	
Register	

To self-register follow this link

Fill-in the form fields and press OK (see the example)

[Main Site](#) » [Register](#)

Register

Email *	<input type="text"/>
Username *	<input type="text"/>
First names *	<input type="text"/>
Last name *	<input type="text"/>
Password	<input type="password"/>
Password Confirmation	<input type="password"/>
Screen name	<input type="text"/>
Personal Home Page URL:	<input type="text" value="http://"/>
<input type="button" value="OK"/>	

* required

Example:

DSB030@stud.aubg.bg

dsb030

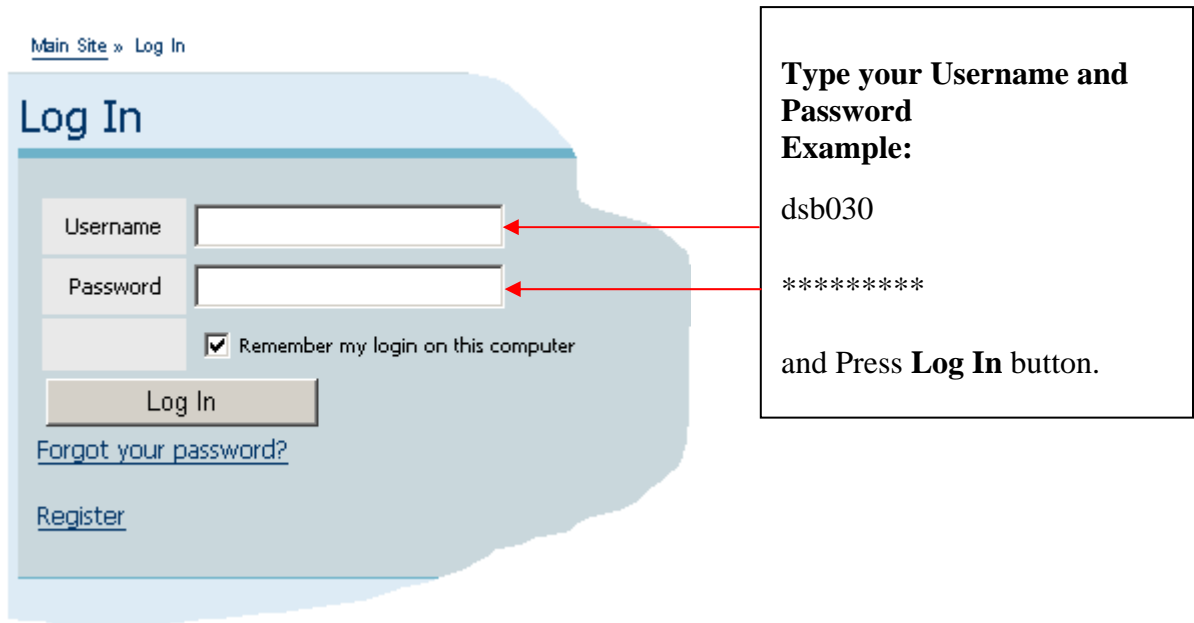

Dan

Bragis

The last two fields are optional.

FAQ05: How to Login .LRN?

Open the link <http://dotlrn.aubg.bg> and login (see the example)

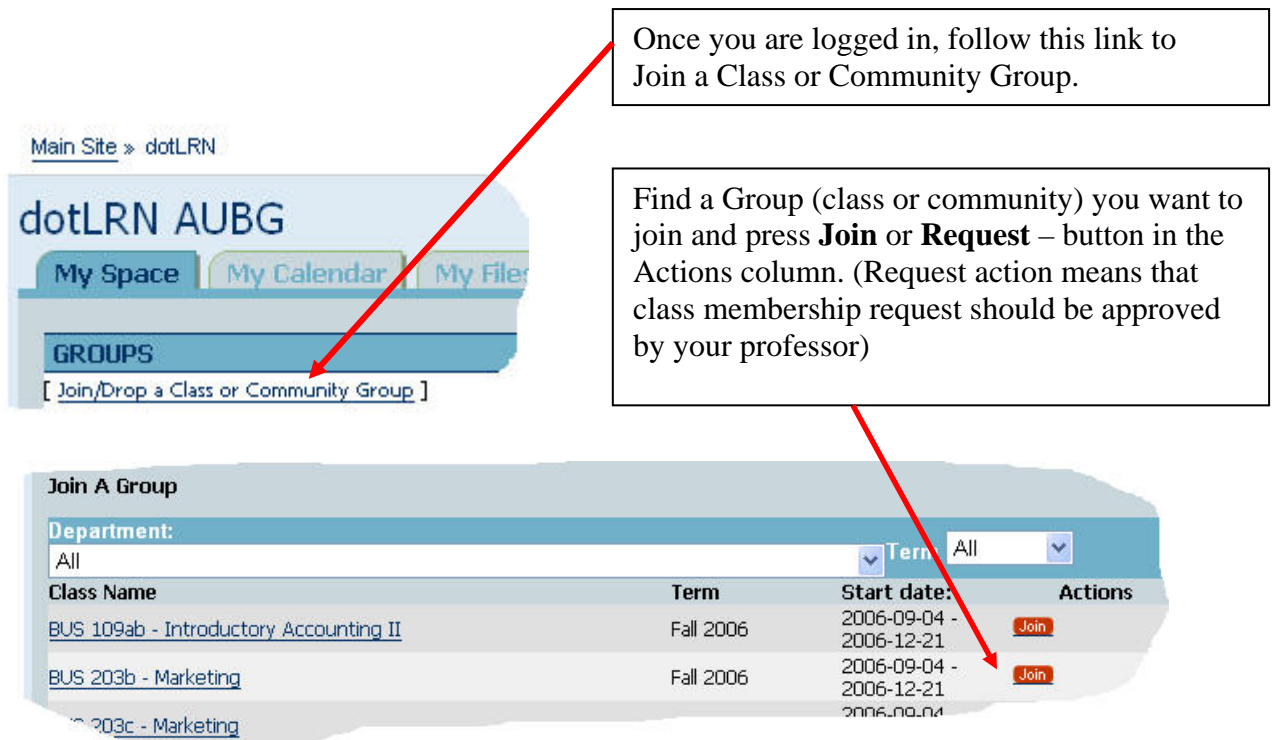

The screenshot shows the login page for dotLRN. At the top, it says "Main Site » Log In". Below that is a "Log In" header. There are two input fields: "Username" and "Password". Below the password field is a checkbox labeled "Remember my login on this computer". A "Log In" button is positioned below the checkbox. There are also links for "Forgot your password?" and "Register".

Type your Username and Password
Example:
dsb030

and Press **Log In** button.

FAQ06: How to join classes and/or communities I want to be a member of

Once you are logged in, follow this link to Join a Class or Community Group.

Find a Group (class or community) you want to join and press **Join** or **Request** – button in the Actions column. (Request action means that class membership request should be approved by your professor)

FAQ07: How to request a new class/community to be created?

Requesting a New Class or Community

The Site Wide Administrator handles class and community requests.
To request a new class send email to vykaragiozov@aubg.bg.

For a **new class**, include:

- The class number/signature (ex. COS230)
- Class title (ex. Computer Architecture and Assembly Language)
- Professor(s), teaching assistants and course assistants (if any)
- Sections (ex. a, b, c)
- One class portal for all sections?, or
- Separate class portals for each section of the course?

You will be notified by email when the shell is created.

To request a new community:

Send email to vykaragiozov@aubg.bg. Include the name of the community, a brief description of its purpose, the faculty or staff sponsor (if any), the name(s) of any persons who will need to be administrators of this community. You will be notified by email when the community shell has been created.

Enjoy using AUBG .LRN!
